

K-LOVE is a radio station that I support not only financially but also in purpose and mission. It is the only radio station in my area that plays music I do not worry about my children listening to. Not only is it commercial free, but it is wholesome music, commentary and news reporting that is positive and encouraging for the entire family. Please do not give LPFM stations priority over such awesome stations like K-LOVE that provide hope and real quality to the listeners in my area. Thank you, Jamie Johnson
